

SONIDEL STK10[®]

Ultrasound Transfection Kit*

In Vivo

In Vitro

- Optimised for use with the SONIDEL SP100 sonoprotator
- Contains all necessary components for *in vivo* and *in vitro* transfection
- Kit manual including protocols and appropriate exposure configuration suggestions
- Positive control plasmid DNA optimised for use with the SONIDEL Ultrasound Platform
- Positive control for GFP or LUC expression
- Excellent extrapolation responses from *in vitro* to *in vivo*

* Patent Pending
